

TOMORROW'S TECHNOLOGY...TODAY!

TAG Global Systems

TAG TECSLATE™

“We believe in providing customers with an experience that exceeds expectation with regards to product quality, service, and value.” - Dov Koplovsky, Owner & CEO

REDEFINE COLLABORATION AND EXPERIENCE THE TAG TECSLATE™

SETTING EXPECTATIONS

Experiencing the TAG TECSLATE™ is the only way to truly appreciate its capabilities. This bleeding edge device is a front line technological must have for any business, luxury, or personal setting. The easiest way to describe it at first glance is a massive tablet, but the TAG TECSLATE™ is so much more. It comes equipped with an on-board Wi-Fi enabled 16GB; the latest Microsoft Windows® software; one Terabyte (1TB) or 256 SSD of memory; video conferencing and quad screen display. Simply calling it a “TABLET” is like calling a Bugatti a “Car”.

COMMUNICATION ENSURES SATISFACTION

Dedicated professionals will be assigned to serve the needs of you and your team. Pre-screening and post-delivery communication is made with you to ensure complete satisfaction of the delivery and setup of your TAG TECSLATE™. We value your time, cooperation, and commitment to this cutting edge technology and we welcome your feedback to ensure our standards of service are met.

PRICING

- TAG TECSLATE™ 65" w/white glove delivery and setup \$15,000
- TAG TECSLATE™ 86" w/white glove delivery and setup \$20,000

STRATEGIC TRAINING SERIES

To truly gain the full benefit of the TAG TECSLATE™, we have put together a training series for you and your team. We believe that through consistent training it will become a valuable asset to your operation. The series consists of on-site training sessions at your location and unlimited webinars so your team can participate and learn how to maximize the TAG TECSLATE™ for projects, presentations, video conference calls, and collaborative sessions. The topics can be customized for specific opportunities and any application you have.

HOW PRICING IS ESTABLISHED

Pricing is established based on the number of TAG TECSLATE's you own.

- QTY (1) TAG TECSLATE \$3,000 per session
- QTY (6) TAG TECSLATE \$2,500 per session
- QTY (12+) TAG TECSLATE \$2,000 per session

Mentor Session: 2-3 Day on-site training of designated mentor resource. Includes 6 training sessions over the course of 2-3 days for a single user. QTY (1) \$10,000.

Customized training series can be created with our dedicated experienced staff members, and quoted separately.

Software

Multiple Inputs

OPTIONAL SOFTWARE

SplitView Screen Partitioning Software

- Enables a true multi-monitor experience, Terminal Services, Remote Desktop, as well as other visualization, remote desktop and thin client technologies. Additionally, SplitView provides several productivity boosting enhancements such as the ability to move windows efficiently between multiple monitors.

Digital Signage Software

- Digital Signage is used typically to inform or advertise. There are major benefits for digital signs over traditional static signs, including the ability to update content remotely over the Web, adapt the screens to your viewers and even interact with your local audience.

Tablet / Laptop Screen Mirroring

- Enables wireless sharing of videos, music, photos, web pages, and many types of documents from your phone/tablet/laptop to the TAG TECSLATE™.

TRAINING & TECH SUPPORT

Training

- We can custom tailor training to meet individual needs with on-site training, by phone, or video conferencing.

Technical Support

- Our tech support team is on call from 8am to 6pm EST Monday through Friday.

“What lies entirely in our hands is to deliver tomorrow’s technology today time-and-time again.”

- DOV KOPLOVSKY, OWNER & CEO

The **TAG TECSLATE™** is a front-line technological must-have for any business, luxury, or personal setting.

INNOVATIVE TOOL

Pushing boundaries is what TAG Global Systems does best, and one of the places where that is most clearly evident is in its use of multi-touch. The TAG TECSLATE™ redefines collaboration with a multiple 10-touch screen for several people to simultaneously move, scroll, play, highlight or draw their way to new experiences. Its many features make it a complete innovative tool. It is already revolutionizing the way businesses meet, interact, train and communicate, and its expandability ensures it future-proof.

“Simultaneously move, scroll, play, highlight, or draw your way to new experiences.”
