TAG TECSLATE™

Revolutionizing the way we
collaborate with advanced
technology

How the TAG TECSLATE™ is Revolutionizing Business

The TAG TECSLATE™ has cutting-edge features that bring technology and innovation to a whole new level. The added features to the TAG TECSLATE™ design is what TAG Global Systems accomplished by way of extensive end-user research. The device is universal and custom to fit any setting to use in educational, business, communication, or multimedia environment.

The TAG TECSLATE™ is designed for the ultimate multitasker as a must have device. It is compatible in all areas of commercial, industrial, public safety, and government markets. The commercial market includes business, advertising, healthcare, safety and security, public sector, and education. The industrial markets are automation, manufacturing, distribution, and logistics. Public safety focuses on police, Fire, EMS, and emergency management. These markets combined cover the majority of TAG TECSLATE™ users.

Full Scope of Features & Functions

The TAG TECSLATE™ is an interactive touchscreen flat panel computer with an on-board Wi-Fi enabled Windows® PC, touch, move, scroll, play, highlight, or draw your way to new experiences. The most intuitive way to communicate.

The TAG TECSLATE™ It has functions and features that can meet any user's expectations. The TAG TECSLATE™ comes in two sizes: 65" and 86". It has an Intel i7 processor with 16GB of memory, and 1TB or 256G SSD on-board storage. The display is an LCD multi 10-touch screen with tempered anti-glare glass. It comes standard with Wi-Fi, Bluetooth®, Blu ray DVD, HD camera, keyboard, stylus set, wall mount, and comprehensive remote.

REDEFINE & EXPERIENCE

The technology that powers presentation and collaboration is finally catching up with the spirit of business. For too long, professional audiences have been confined to boardrooms or presentation halls in order to be subjected to death by PowerPoint. The TAG TECSLATE™ is redefining that experience by letting your imagination become reality. The TAG TECSLATE™ makes these daydreams real, and many more. Much more than just an extremely large tablet, the TAG TECSLATE™ features TECSLATE Pro Interactive Software with a touchscreen that makes information come to life, anywhere.

Wall mounted vertically and horizontally or to remain mobile on a custom stand in any top-shelf environment, the TAG TECSLATE™ allows the presenter—and even the audience—the opportunity of greater purpose.

The Ultimate Solution for Every Market

The capstone for any first-class experience, the TAG TECSLATE™ delivers what the imagination can create with tomorrow's cutting-edge technology capabilities today for any industry.

The TAG TECSLATE™ is designed for the ultimate multitasker as a must-have device. It is compatible in all areas of B2B markets. The target markets include business, advertising, health care (ER, physician offices, VNAs), safety and security, Public Sector (utilities, police, fire, EMS), and education (K-12 and Higher Ed). The industrial markets are automation, manufacturing, distribution, and logistics. Public safety focuses on police, Fire, EMS, and emergency management. These markets combined cover the majority of TAG

The Challenge to Overcome

The TAG TECSLATE™ size and comprehensive features are hard to portray and understand through only printed literature. The video demonstrations and creative pieces do not fully tell the whole story. There are many features and functions to the device that one can only experience through interaction. Live demonstration is recommended to bring the device to life.

Hear the Feedback From Our Customers

“The TAG TECSLATE has changed the way communicate with information sharing. My presentations have dramatically changed for the better. The TECSLATE makes presentations, clear, crisp, user friendly, and easy for the audience to follow. The department uses the TECSLATE for all crime stat presentations.”

– Lt. Damon Psaros, *Newport Beach Police*

“I was in search for a cutting edge, interactive, game changing technology that was versatile for the many various needs of my clientele and came across the TAG TECSLATE by TAG Global Systems. “There is no better device currently on the market at this price point that compares to the TESLATE. Whether for your business, school, and municipality of nonprofits, the TECSLATE will take your operations to the next level. The TAG team was knowledgeable and great partners to work with.”

– John Lek, SVP and General Manager,
Green Dragon Tavern & Museum

“For us when we were choosing technology we were looking at trying to find the best solution to, not a problem, but an opportunity. What TAG Global Systems impressed upon us was that the TECSLATE was timeless. As a business owner, to know that you are going to be at the forefront of technology from now and going forward from years to come it’s going to change the way we do business for ourselves, as a company, but also how our partners are going to utilize it as well.”

– Cleon N. Daskalakis, President,
Celebrity Marketing Inc.

Even More Benefits

Not only is the TAG TECSLATE™ the most intuitive piece of technology for the presenter's toolkit, it's also the most functional.

SOFTWARE

SplitView Screen Partitioning Software

- Enables a true multi-monitor experience, Terminal Services, Remote Desktop, as well as other visualization, remote desktop and thin client technologies. Additionally, SplitView provides several productivity boosting enhancements such as the ability to move windows efficiently between multiple monitors.

Digital Signage Software

- Digital Signage is used typically to inform or advertise. There are major benefits for digital signs over traditional static signs, including the ability to update content remotely over the Web, adapt the screens to your viewers and even interact with your local audience.

Tablet / Laptop Screen Mirroring

- Enables wireless sharing of videos, music, photos, web pages, and many types of documents from your phone/ tablet/laptop to the TAG TECSLATE™.
