The TAG GD3030 - makes every task more efficient with the accessory line that fits your job.

Desk-top Docking Station

The Desk-top Docking Station has I/O ports and USB ports with LED power indicator, as well as, Ethernet for connectivity. A keyboard can be connected for desktop computer.

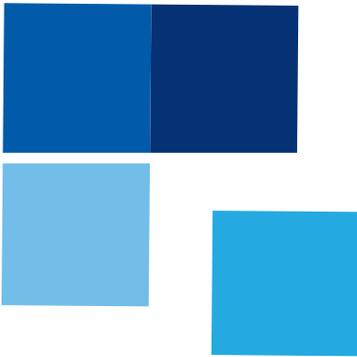

Vehicle Docking Station

The Vehicle Docking Station is every bit as rugged as the tablet is. It has speakers, LED power indicator, RF pass-through connector, I/O ports, and ACC power harness. A cigarette lighter kit is also available from TAG Global Systems. The standard four-hole pattern allows the docking station to be easily mounted in vehicles, forklifts, and carts.

Dual Battery Charger

The Dual Battery Charger has Power LED with DC in-jack. Having a spare battery fully charged and ready to go will make sure your tablet is always powered. The charger can simultaneously charge the standard or extended battery.

More Accessories

Detachable Keyboard

This latching IP54 rugged foldable keyboard turns your tablet into a notebook with integrated touchpad. The keys are backlit for ease of use in low light areas and has four levels of brightness.

Extended Battery

The Extended Battery is a 9000 mAh Lithium Ion battery. This optional accessory will give you up to 15 hours of device use.

Extra Extended Battery

The Standard Battery is a 4500 mAh Lithium Ion battery. This optional extra battery can give you up to 6 hours of continues device use.
