

## Rugged modularity TAG GD3015 without affecting performance.

The TAG GD3015 IP54 tablet provides the modularity and performance required by the mobile workforce, regardless of location or terrain. Without affecting performance, it can withstand drops, spills, and bumps in the warehouse or on the road. The power is in its ability to have all the tools you need to work in a mobile environment.

**RESPONSIVE. EFFICIENT. POWERFUL.** With a high resolution, sunlight-viewable 10.4" XGA resistive touchscreen display, the TAG GD3015 addresses the needs of a broad spectrum of users, yet remains cost-effective. It's sleek design helps optimize productivity without size or weight limitations.
